

# Anthony Yi

North York, ON

(647) 704 1025 | anthony.yj.yi@gmail.com

## TECHNICAL PROFICIENCIES

Programming Languages	C, C++, Java, Python, JavaScript
Web Development	HTML, CSS, Bootstrap, Node.js, React, Next.js
Development Tools	Git, Azure DevOps, Jira, Agile
Database	PL/SQL, MySQL, MongoDB, SQL Developer
QA Testing	JUnit, Selenium, Cucumber (using Java)

## WORK EXPERIENCE

September 2023 – April 2024

### Ontario Public Service (MCCSS), Toronto ON — *Co-op Developer/Automation*

- Developed and debugged JUnit test packages to fix 10% of the total tests in the CI/CD pipeline.
- Programmed automated test code in Java with Selenium and Cucumber frameworks to execute webdriver browser testing.
- Improved system reliability by utilizing SoapUI to execute HTTP requests to in-house APIs and verify accurate data processing and decision making.
- Reduced application latency by consolidating commonly repeated SQL queries into reusable groups.
- Standardized a defect report structure that provided technical details, evidence, and insights to reduce the number of meetings.
- Lessened the reliance on manual testing for new features by developing automated tests concurrently with feature development.
- Identified gaps in the application's consistency and subsequent impact on QA testing due to a lack of unit testing. Reintroduced testing to the CI/CD pipeline using co-op/intern resources.

October 2017 – December 2022

### Compliance/Quality roles in the pharmaceutical industry

June 2021 – December 2022

- SteriMax, Oakville ON — *Lead Investigator*

August 2019 – June 2021

- Purdue Pharma, Pickering ON — *Quality Systems Coordinator*

October 2017 - August 2019

- UPS Healthcare, Burlington ON — *Quality Assurance Specialist*

## EDUCATION

Seneca College – *College Diploma, Computer Programming* (Graduating September 2024)

University of Toronto – *B.Sc. Cell Systems Biology*
